## FACT SHEET

### AXP™ Neutral Cleaner – Green Seal Certified for the environment, touch-free and convenient for cleaning professionals

AXP™ Neutral Cleaner from Advance is designed to complement the Advance AXP onboard detergent dispensing system. This customized detergent is also Green Seal Certified for low environmental impact and proven cleaning performance.

AXP Neutral Cleaner is a highly concentrated general use cleaner for all environments. In fact, the contents of just one 1.25 gallon recyclable cartridge combine with clean water to produce 500 gallons of cleaning solution. Operators can spend less time prepping and more time cleaning.

With the AXP Neutral Cleaner you never waste detergent, water, or time. This “no-touch” system speeds cleaning by eliminating the need for measuring or mixing. Simply insert the pre-filled, recyclable AXP cartridge into your Advance AXP scrubber, add clean water to the solution tank and go. The AXP system automatically registers the cartridge and dispenses the correct rate of detergent. Because the detergent and water are mixed at the scrub deck, you only use the detergent and water you need to clean your floors.

Safety for your cleaning professionals is designed into the AXP detergent system. The pre-filled “no-touch” cartridges eliminate operator contact with cleaning detergents. And with no need to pour chemicals from container to machine, there is no opportunity for spilling on exposed skin and no need to lift heavy detergent containers.

If you're looking for an environmentally friendly detergent alternative for your AXP onboard detergent dispensing system, look to the new AXP Neutral Cleaner.

### Technical Specifications

#### AXP Neutral Cleaner

pH Level	6-7
Volume Per Bottle	1.25 gallons
Solution Mixed Per Bottle	500 gallons
Product Quantity	4 bottles of AXP Neutral Cleaner
Ordering Part Number	56 315 535

### FOR USE WITH ALL ADVANCE AXP EQUIPMENT

Detergent bottle is easily placed into the AXP system.

Attach the cap to bottle and detergent is automatically diluted to the proper ratio.

Green Seal is a non-profit organization dedicated to identifying, evaluating and testing safe and environmentally friendly products. The Green Seal is awarded to products that have less impact on the environment and work well. To earn the Green Seal, a product must meet the Green Seal environmental standard for the category as demonstrated by rigorous evaluation and testing and a plant visit. Green Seal standards are set so that they identify the most environmentally preferable products currently available; thus, they are leadership standards.
